(d) the total quantity of wheat procured by the F.C.I. till date and the projected requirement during 1992-93?

THE MINISTER OF STATE IN THE MINISTRY OF FOOD (SHRI TARUN GOGOI): (a) and (b). The estimated production of wheat in Punjab during crop year 1990-91 (Marketed 1991-92) was 121.55 lakh tonnes. The market arrivals during 1991-92 rabi marketing season were 63.24 lakh MTs out of which procurement by FCI and other State Government agencies was 55.42 lakh MTs. All the stocks produced are not brought to the mandis as the farmers retain the stocks for their own consumption and for seed purposes etc. It cannot, therefore, be said that wheat stocks in Punjab are not available.

(c) The question of reconciliation does not arise.

(d) A total quantity of 77.52 lakh tonnes of wheat, including 55.42 lakh tonnes in Punjab, has been procured by FCI in collaboration with the State procuring agencies during 1991-92 rabi marketing season. The procurement of wheat under price support being totally on voluntary basis, no definite target/requirement, as such, can be projected for 1992-93 Rabi season.
